

MAXINOL PT 200

DEINKING FORMULATION

New generation deinking agent

PRODUCT FEATURES

MAXINOL PT 200 is a formulation of selective components to offer a complete solution to deinking application. MAXINOL PT200 exhibits ink molecule fragmentation and detachment from cellulose fibers along with sufficient foaming to easy separation of detached ink particles.

SPECIFICATIONS

Appearance	: Clear colourless to pale yellow aqueous solution
Solid content	: 25-27 %
Specific gravity (g/ml) 25/25°C	: 1.0 - 1.2
pH (5% solution)	: 8-10

(These are typical values and not the final specifications)

MAJOR APPLICATIONS

MAXINOL PT 200 is incorporated in various chemical formulations of Industrial paper processing. It can be used as single additive for complete deinking application.

HANDLING PRECAUTIONS

Care should be taken to avoid contact of the product with skin and eyes. Goggles and rubber gloves should be used at all times while handling the product.

PACKING

50 Kgs HDPE Carbouy / 250 Kgs Polydrum
